I was awaiting approval of mockup before proceeding with forwarding pricing
Please understand, the design has got bigger, closer to the house, shallow planter beds due to change in wall heights
This in turn this effects irrigation design and plant material quantities
Once I have confirmation of smaller walls I should be able to get estimated costs to you fairly quickly
Maybe we should be looking at a different style of wall
Making the walls smaller has made them more labor intensive.
Let know when you have time to discuss
Thx
