Hi Eva,

Have had the craziest day, I'm just slogging through emails now. Bernard K had called me Thursday about getting him in to see Hugh Sampson was to send me an email and didn't. The number [REDACTED] is the ONLY reliable number to give anyone it's covered 24/7 by a member of my team. Please give it to Jeffrey and tell him to put it in his contacts as "mount sinai help" my cell charges in the kitchen when I'm not on call and I too wouldn't hear it. That number goes to a live answering service who pages the person covering our Board and donor community and that person knows they are covering and has their pager at their ear. All he has to say is he's a friend of yours and EVERYONE is great ,we've been working together for close to a decade. the ER always runs on triage, but we work behind the scenes vis a vis beds specialists.

I want to talk to you live about this situation. It's not a good set up. he'd show up at the ER, with no mount sinai doctor if not a cardiac issue Rony would be unlikely to be his admitting physician. be assigned to a hospitalist without any baseline on him since he's not a patient at present with any data in EPIC . I spoke to Rony today about something else and he's out of the country at a CGI event. Either we have to speak to Rony and confirm like Valentin Fuster he'd be an admitting and call consults for any subspecialists. he'd have to admit to 11W, I have to check that he does.

Is he out of Lenox Hill?? Let me know how the DK visit goes on Tuesday and let's stay connected re Jeffrey till we have a plan. My cell is [REDACTED]. I haven't been to bed yet since Friday am, going to take a hot bath and set a 2pm alarm. too many 4 hr nights this week could scare small children. if you want to talk about this happy to talk after 2, going to dinner and the theatre sat night heading out @ 5:30. Wishing you the BEST benefit next week and a great holiday season as well.

warmest,
Robin

p.s if you want to give me Jeffrey's cell I'll check on him as well, he knows me well.

Hi Robin,

A quick question. Last night Jeffrey (Epstein) had to go to the ER in the middle of the night at 3am. He couldn't get ahold of any of his doctors so he went to Lenox Hill, which is around the corner from him. In the future I told him I would like him to go to Sinai. My question is, if it is in the middle of the night is there any way to make the ER a smooth experience? Anyone he could call besides his doctors? I am just worried I won't hear my

phone ring. As I am writing this I am thinking the answer is that he probably would have to call his doctors. His doctors are Rony Shimony, Bernard Kruger and Woody Merrell.

Have a wonderful holiday if I don't see you before.

Best,

Eva
