 **Wolfram Insider for Education**

Issue 12, 2015

IN THE SPOTLIGHT

**Wolfram Programming Lab<sup>BETA</sup> »**

Learn how to code for the real world with engaging activities in Wolfram Programming Lab. Get started for free and instantly create amazing programs.

NOW IN PRINT

***An Elementary Introduction to the Wolfram Language »***

Learn the basics of coding with the Wolfram Language from the creator of Mathematica himself, Stephen Wolfram. Because it assumes no prior programming knowledge, this book is ideal for anyone interested in programming's practical applications, including technical and nontechnical high-school and college students. Save 25% through December 31.

SPECIAL OFFERS

**Wrap Up 2015 »**

Take advantage of these holiday deals and find great gifts for the innovator on your shopping list. Save on Mathematica, SystemModeler, Wolfram gear, and more. Offers end December 31, 2015.

FROM THE EXPERTS

## Exploring Programming for Computational Thinking »

Explore methods for introducing computational thinking and programming activities to middle and high-school students at this free virtual workshop for educators on December 17. We'll show you Wolfram Language Explorations using the new Programming Lab. All are welcome, and no programming experience is needed.

NOW AVAILABLE

### Recent Updates to the Wolfram Product Family

 [Wolfram Store](#)

#### **SystemModeler 4.2 »**

New features include specialized editors for better usability, drastically improved compile time for large models, enhanced Wolfram Language integration, and more.

#### **gridMathematica »**

Updated for Version 10.3, gridMathematica extends Mathematica's built-in parallelization capabilities for faster execution.

#### **webMathematica »**

Add interactive calculations and visualization to websites with the latest web server technology, now updated for Version 10.3.
