Hi Larry,

I received your message.....and Yes there is NO PROBLEM whatsoever you contacting Brian Hazen, however I think it might be best to initiate this on Monday. I just tried Brian and I couldn't reach him and I think he might be away for the weekend , but I will keep trying.

As you probably know I had a long talk with JE yesterday about the aircraft.

Soooo something you need to know is that the aircraft has been on Lease to Boeing Aircraft Company and used as their executive transport for the last 5 + years. So in terms of Pilots ????? We don't have any.

The aircraft came off of Lease in May 2017 and it underwent a good inspection (lease return) at BizJet in Tulsa at that time. After Tulsa for aprox 60 days it was then Ferried to MEDFORD OREGON where it sits in a Hanger and hasn't flown since. I believe the aircraft is currently in very very good shape because for sure Boeing really looked after it and money was no expense. In addition some cosmetic work was done in Tulsa in addition to the maintenance.

I will send you some more stuff in our files.

In the meantime I will hook you up with Brian Hazen who is the Owners Chief Engineer and he has worked on this aircraft for a very long time. X-Military guy , both knowledgable and very professional. Our Owner does own and operate another BBJ a 2012 model aircraft.

More coming.

Best

Bob P.

Bob,

Can you put me in contact with Buyers Mx and Pilots?

With your approval, I'd like to speak with them

Thx

Larry
