Spoke to Clinton at length about it yesterday, he said they would have to upgrade the system to come out of there. He said we would need to come out of Great Bay landing if we wanted to go there. The issue is it cuts out the redundancy since we would have both legs off same feeder. I am in the water most of today and have a call at 530' but am available around 4 if that's not too late for me to call or come by.
