Are you ok! with me offering Boscoe \$150 a day to oversee the Barge project. ?

He currently makes \$250 a day driving the Barge.

Please advise,
Ann R.

Or we could say...
\$250 a day to run the barge and
\$150 a day to over see a project.

He's not running the barge or fixing anything he's just over seeing and making sure all is correct.

Your thoughts?

Ann R.

another point to add

Bosco will not be needed on sight all days and we should consider converting his 250 per day to:

- a) 8 hours = 31.25 per hour
- b) 9 hours = 27.77 per hour

let me know your thoughts

Greetings Rebel,

Suggested plan of action:

You will be the first point of contact for Subbase Drydock and Boscoe.

Boscoe will report via email to you directly, copying me and Rich.

Gene will report directly to you.

Boscoe will let you know what days he is needed at Subbase Drydock, in advance.

Boscoe's reports should be daily, whether he is reporting directly from Subbase or via Gene's report to him. The reports should include work completed, when he is on site, photos, any issues that arise.

We would like to encourage Gene to also keep a photo log of the work progress, as well as time sheets, if possible.

Obviously you will be JE's point of contact for the project.

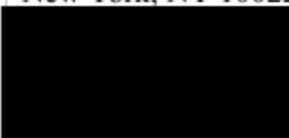

We would like to try this course of action starting next week, and will adjust if needed at the end of the week.

:) DW

jee said ok to go into subbase even though he believes they are going to rip us off
in order to mitigate that jee would like bosco or someone with knowledge (boyson captain who worked
for us on weekends) to oversee all work and check daily / weekly..

lets discuss tomorrow

thanks
