---

Good afternoon Jeffrey,

An update on the meeting with Joe Desantis, myself, Anna and [REDACTED] on LSJ today.

We got a positive impression. Especially [REDACTED] and myself felt he could be a good candidate. Joe noticed multiple items that needed attention without us pointing them out. Disconnected UV treatment lights, missing variable speed pumps, missing covers on electrical panels etc.

He is soft spoken and pleasant.

Seems to be concerned about maintaining correct documentation and maintenance logs (a hotel requirement)

Has a policy of always training his crew so everyone can step in if needed.

Very flexible with work hours

According to [REDACTED], he has a good reputation in Compass Point Marina where he lives.

The negative:

Limited RO experience. He would have to do the training program alongside Smiley. I don't think it's a deal breaker. I'm sure he can learn.

Anna correctly noted that it's hard to judge a persons skills on a conversation. She recommended a trial. I fully agree with that,

With your permission I'll schedule Joe to work on a few projects for us on his days off. Working a day with Smiley and a day with Danny E.

Thanks

John
