# Projects We Love

"Never stop pushing yourself to try new ideas or techniques outside your comfort zone." —artist [Scott Teplin](#)

This week we're highlighting projects that encourage creative exploration through performance, writing, cooking, painting, and more.

By Bare Conductive

**Electric Paint Lamp Kit:** Build your own touch-sensitive paper lamp with the help of this easy-to-follow kit, which uses conductive paint in place of complicated wiring.

[View project](#)

By Jim Findlay

**Electric Lucifer:** Step one: expand your mind by listening to Bruce Haack's '70s psychedelic opus, *The Electric Lucifer*. Step two: team up with artist and director Jim Findlay to transform it into a staged rock opera.

By Ashia Ismail-Singer

**My Indian Kitchen:** Cardamom pudding. Carrot halva with thickened cream. Learn to cook dishes that combine chef Ismail-Singer's Indian heritage with culinary influences from her time living in Malawi, the United Kingdom, and New Zealand.
