- Rothschild UK set up end of 2013 in London the "Edmond de Rothschild Private Merchant Banking LLP"
- Purpose: personalised advice on strategy, transactions and investments to business owners and their companies, family offices and private individuals
- Rothschild UK fired their CEO early 2015 (Richard Briance).
- Richard Briance has set up his own shop now in London called PBM Private Merchant Bank, claiming he took half the Rothschild mandates with him.
He's talking bad about Ms. E d R
- The Rothschild website still states Richard Briance as CEO !!
