I just called Amanda and she said you spoke and put A trade in and would send details shortly. Is there any additional follow up you need. Please advise. Thank you.

Rich,

Very good question. Equity options are typically priced on spot notional, not strike notional.

So 1mm shares * 143.80 = \$143,800,000 notional

18.85% = \$27,106,300 premium

Sounds like a lot but these are actually quite cheap.

Regards,

Amanda

Is 18.85 percent as follows:

1,000,000 x 150 = 150mm x 18.85 as cost for call option?
