President Hassan:

We would be happy to review your current campaign operations as well as the overall organizational development of your campaign to date at which time we could then offer to you our advice on the continued development of a successful campaign strategy for you.

As Jeffrey indicated below, we would need to speak to someone from within your campaign who is familiar with the current level of overall campaign development and strategy to date. This would give us a good baseline understanding of what has been done to date as well as a better grasp as to how the election is unfolding at this time.

Once we know more about some of the current specifics of the campaign, we will be in a better position to discuss how we feel we could be of help to you and your campaign team.

We look forward to hearing from you and / or the designated members of your campaign team.

Thank you,

Jim McGee
