---

Jeffrey,

Universal can usually work any trip miracle to obtain over flights and landing permissions,. I received a message from Universal below, the can't combine two destination airports such as Senegal / Cape Verde, and obtain over flight for Gambia Bissua and Guinea, small african nations that we need and always obtain overflights for.

Just to let you know a lot goes on behind the seen in these sensitive areas to obtain all our clearances.

GOOY-Senegal

DIAP-Abidjan

GVAC-Cape Verde

Let me know if you have a flight route when your able, thank you, Larry

Message from Universal Houston /code name: Delta Team;

Hello Larry,

the problem is that we have duplicate permits for legs DIAP-GOOY and DIAP-GVAC

Currently we have permits Guinea Bissau, Guinea and Gambia requested on the DIAP-GOOY leg.

If it changes to DIAP-GVAC we will need to transfer permits to that leg.

For the leg Diap-GVAC you will need a Senegal permit so I requested that permit. I also revised GVAC land permit for tomorrow instead of 19 Jan..if we need to we can revise again.

Do you have any idea on schedule so we can revise the permits if needed?

If operating DIAP-GOOY will you still depart 0730 local or was that only for DIAP-GVAC option?

Rgds- Shawn Leavell/ Delta Team
