Larry,  
I finally had an opportunity to go over this project with Morris.  
His biggest concern is that if he takes on a project with no profit in it and then when a retail project comes along our guys are already pulled away on the BELL.  
However, he also acknowledged that Jeffrey runs in the best of circles, and he could probably help us by sending us more business and other projects.

When it was all said and done Morris has agreed to drop another 25K of the quote to \$175k.

He wants you to make sure that you let Jeffrey know we are going to put our signature on it and make it a true bespoke completion.

If we can make it work at 175k, no hard feelings!

Hi Gary,  
do you think you will have an adjusted price today for me, I'd like to make some commitment to an interior shop asap,  
thx  
Larry

Dear Larry,

To re-do your Bell 430 with the Bentley style interior provided, including the paint stripes, the seat change and EVERYTHING else you requested we would be right at \$200,000 dollars.

The 9 extra hides which you have offered will NOT help, as we would require 9 hides before we even made it to the 6 seats. You do not want to run the risk of the hides not matching if you try to use a different die lot either.

If we can firm things up quickly and order the materials now, in advance, we will be able to turn it around in 30 days or less. If you want to go forward I will send someone to Palm Beach with some leather and wood samples to match up the Bentley.

Let me know your thoughts after your meeting with Jeffrey.
