Shall we do this new facial on Fri or Sat (I am Completely free both days). The needles have arrived already and I can use my current machine (the new dermapen is arriving on MARCH 13th). I have got all the materials (surgical gloves, ampules with the serums, etc) + after the procedure itself we can do a carbo dioxide korean facial - a great regeneration after needling!

All together takes about an hour (at least 40 min). You will love it!!! I know it's too little too late, but let's try??
