An event from Gmail has been added to  
your Google Calendar

Hey, Jeffrey Epstein!

Google Calendar adds events from Gmail, like reservations for flights and restaurants, to your calendar automatically. The following event has just been added from Gmail to your calendar:

- Flight to Saint Thomas on Wed Mar 9, 2016 at 7:00am - [View](#)

If you'd prefer, you can turn this feature off in Google Calendar settings.

[Learn more](#) about events from Gmail on your calendar. In the future, you will not get further emails when events are added.

Best,  
The Calendar Team
