Thanks for taking the time to meet while you were in Cambridge

I hope the Update I provided was helpful / Will plan to follow up further when I see you next

On another note: We did not get a chance to discuss your idea of the Congresswoman working with the current Administration (especially given the challenges, and frankly the unavoidable and impending crisis that is coming down there)

I did speak briefly with her about the topic and I have been advising her around some of the more immediate topics including the leading up to the Inauguration but would like to discuss it with you further so that I can continue to talk to her more strategically

Please let me know if, when, you have a moment to catch up on the topic

McGee
