Dear Jeffrey,

I hope you are well. It's been a long time since I last spoke to you and I would love to learn from you more but I do understand you are very busy. So I just would like to hear a quick answer from you. I remember the last few times we spoke you mentioned you could help me with studying and giving some great advice but at that time I couldn't come up with a clear vision of my future pursuits so didn't want to come up with silly ideas. I think I've figured it out now and have a strong desire to study coding and am hoping that it's gonna help me a lot. I would also like to ask for your advice about some things in general because you're a great teacher and a mentor.

So finally my question to you is - do you mind being my friend and mentor along the way? I promise I'll be a good student!

Looking forward to hearing from you soon!
