Whoever said "All that glitters is gold" clearly never played with mixing metals. Up the glam factor by incorporating silver tones into your golden decor, and watch a chic, modern room take shape.

The mixed metals trend is lighting up the design world this season, and we've got everything you need to capture some of its magic at home. So if you've got a heart of gold, mix things up with some silver accents, like the striking armchair or an elegant mirror. And

if you're partial to sterling, go for gold with a glitzy side table or throw pillow. Then sit back and watch your space shine like never before.
