I expect to be in the US then, it would be great to get together and show you some recent OpenCog work (yes some stuff that actually works!!) and also discuss plans for next steps and how you might be able to help if you wish...

I hope you're doing well; it will also be good to catch up generally... though I do hear news of you now and then from Joscha ...

thx!

"I am Ubik. Before the universe was, I am. I made the suns. I made the worlds. I created the lives and the places they inhabit; I move them here, I put them there. They go as I say, then do as I tell them. I am the word and my name is never spoken, the name which no one knows. I am called Ubik, but that is not my name. I am. I shall always be." --
