---

Look at the expiration date. I still have an F1 visa in my passport. Arda is not 100% sure how it will help because of my h1 b in the interim but I will ask parsons if I get in which I am going to press to find out this week. Remember an f1 needs to be accompanied by the I-20 form which the school gives one. And I would still have to leave to get stamped back in as a student.

Arda wants me to go to the british consulate tomorrow about my passport because it is damaged and he thinks immigration will not be happy with it.
