The need for investing in education, technology, medicine, and humanitarian endeavors has never been greater. That's why supporting talented researchers and scientists like those at The Hebrew University of Jerusalem (HU) is so important. By supporting HU, you foster life-saving breakthroughs in everything from cancer research to safer automobiles to sustainable agriculture. These innovations begin in Israel and grow to benefit the entire world!

[Help us continue this pioneering work in 2017!](#)

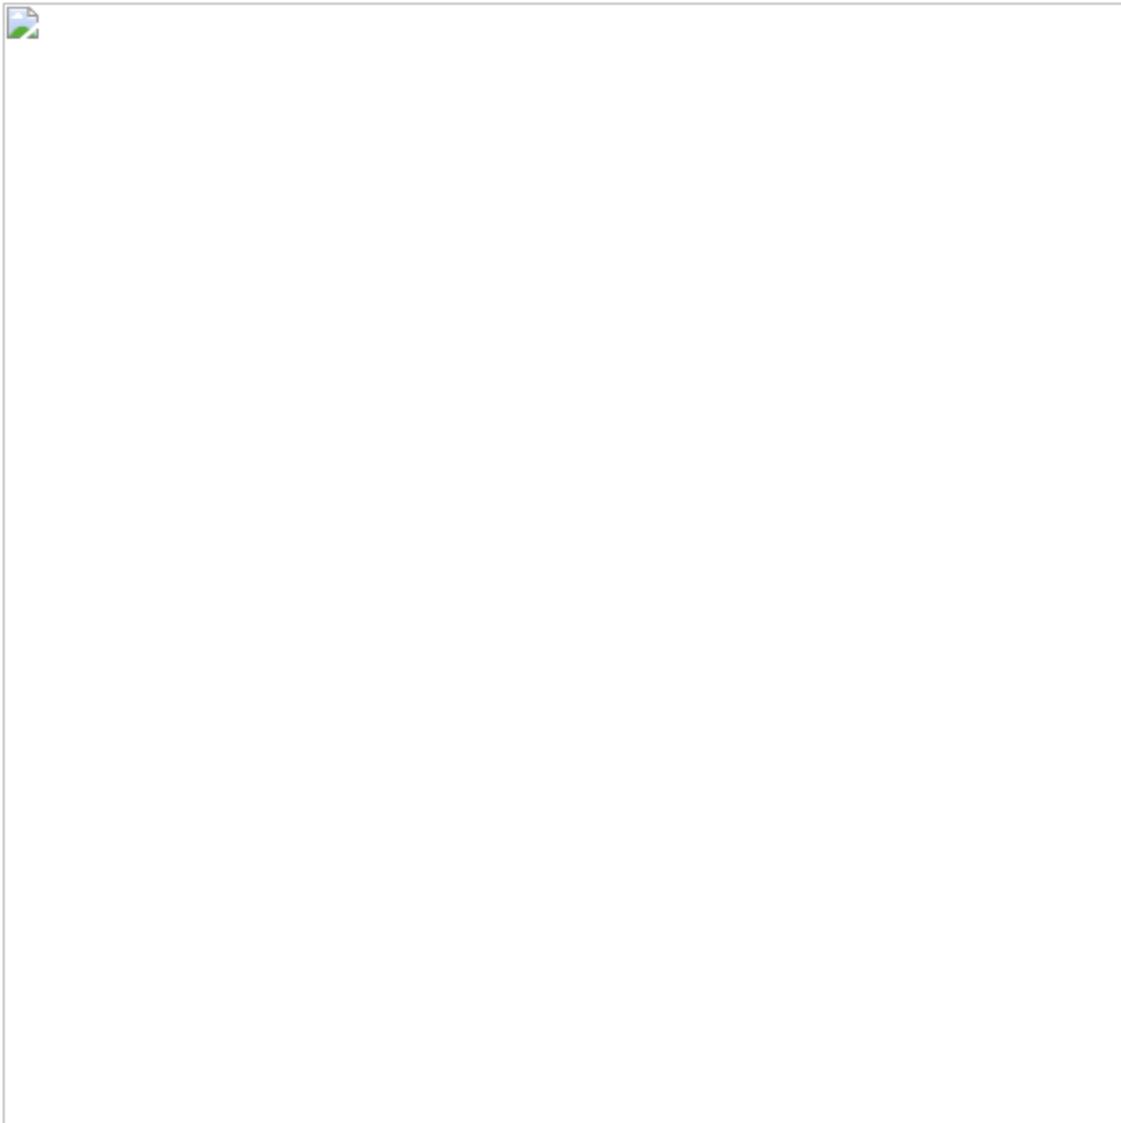

Your generous investment helps HU lead the way in critical areas such as:

- **Fighting Disease** - HU scientists have identified [genetic “switches” for deadly viruses such as Ebola, Zika and West Nile](#) that may potentially block the viruses

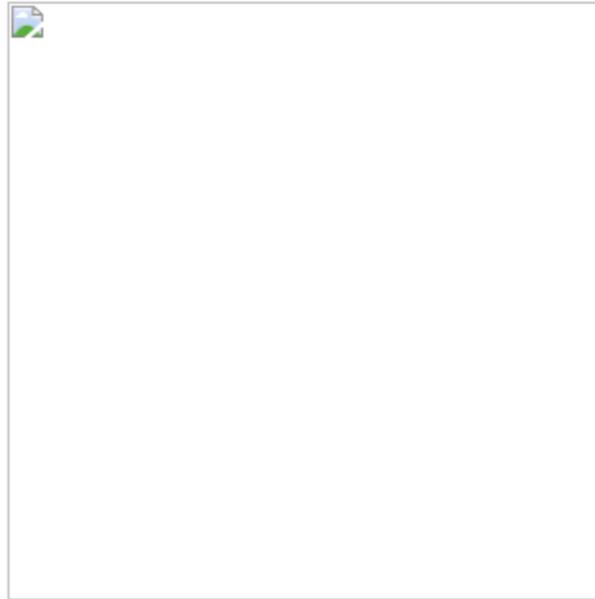

from replicating.

- **Empowering Technology** - The team at HU's Yissum Research Development Company are pioneering the power of the senses to [help blind and visually impaired individuals navigate](#) in new ways.
- **Improving Health and Medicine** - HU researchers are studying [the relationship between body mass index](#) (BMI) in adolescence and midlife cognitive function.
- **Defending World Food Supplies** - Research on the [circadian rhythms of honeybees](#) is shedding new light on how to protect these critical contributors to the world's food supply.

Your support helps HU achieve life-saving breakthroughs even faster!
