Once a Week Detox

For a cellulite free summer!

Prepare to consume only liquids for a day to fully detox. Begin your day with a large glass of distilled water with lemon or cucumber slices. Through out the day,consume green non dairy juices and if you find yourself feeling hungry,add a half cup of nuts and seeds. Cellulite is caused by an accumulation of toxins and waste stored in your body along with fluid retention. This one day cleanse, once a week is a sure fire way to get your body to dispel toxins.

Xoxo
