Subject: i'd like to put out the bellow statment

Date: Wed, 21 Jan 2015 16:29:40 +0000

Since JE arrest in 2005 for solicitation of a prostitute I have been the target outright lies, innuendo, slander, defamation and salacious gossip and harrasment; headlines made up of quotes I have never given, statements I have never made, trips with people to places I have never been, holidays with people I have never met, allegations of impropriety and offensive behavior that I abhor and have never been party to, witness to events that I have never seen, living off trust funds that I have never ever had, party to stories that have changed materially both in time place and event depending on what paper you read, and the list goes on.

I have never been a party to nor been part of any criminal or civil suit pertaining to JE arrest and subsequent conviction.

For the record:

At the time of Jeffrey's arrest I was in a very long-term committed relationship with another man and no longer working with Jeffrey. Whilst I remained on friendly terms with him up until his arrest, I have had limited contact since

Every story in the press innuendo and comment has been taken from civil depositions against JE, which were settled many years ago. None of the depositions were taken under oath nor met any standard of truth and were used for those who claimed they were victims to receive financial payment to be shared between them and their lawyers. One firm created and sold fake cases against Mr. Epstein – the firm subsequently imploded and the Rothstein, the owner of the firm was sent to jail for 50 years for his crime. The lawyer who is currently representing Virginia worked for and under Rothstein until the firm's implosion.

So called 'new revelations' stem from an alleged diary from VR that reads like the memoirs she is purporting to be selling. Also perhaps pertinent - in a previous complaint against others, her claims were rejected by the police "due to.. VR ..lack of credibility "

The new interest in this old settled case results from lawyers representing some of JE victims filed a suit against the US government to reopen JE conviction claiming that they need to see the deal as victims right were not adhered to.

The document and deal that JE negotiated with the government was given to the lawyers 3 years ago and is a public document.

I am not part of, nor did you have anything to do with, JE plea bargain
I am not one of the people alleged to have conspired with Jeffery Epstein
I have never even seen the proceedings nor any of the depositions
And I had no knowledge of any complaints.

I reserve my right to file complaint and sue for defamation and slander
