

1 To find a woman you need Time and Money therefore:

$$\boxed{\text{Woman} = \text{Time} \times \text{Money}}$$

2 "Time is money" so

$$\boxed{\text{Time} = \text{Money}}$$

3 Therefore

$$\text{Woman} = \text{Money} \times \text{Money}$$

$$\boxed{\text{Woman} = (\text{Money})^2}$$

4 "Money is the root of all problems"

$$\boxed{\text{Money} = \sqrt{\text{Problems}}}$$

5 Therefore

$$\text{Woman} = (\sqrt{\text{Problems}})^2$$

$$\boxed{\text{Woman} = \text{Problems}}$$
