Jeffrey,

Thank you for letting me ride on the GIV to Miami, the crew let me sit in jump seat for landing,. It was great, enjoyed watching the auto throttles,.

The GIVSP was a 1997 airframe with a G450 headliner / wide body interior,. Very spacious compared to our GII,. And would be a nice size upgrade for us when the time is right,.the crew told me its a good 8+30min to 8+45min range aircraft at Mach .77, Paris to Teterboro with 70kts headwind,.

Ps: CM told me she found your email address on the internet! She wasn't sure if it was yours, she said that she was bored one night and started looking up your name on the web, strange,.

Also her niece emailed me her school tuition, Just fyi, should I fwd to DKI ?

thank you,

Larry
