**Subject:** Zorro ATV's and Mule

Jeffrey,

1) The recommendation for the two 2012 Polaris ATV's is to go with fuel injected units which would mean moving up from 500 units that are carbureted cost is \$12,639 to the next level which is the 550 model fuel

injected cost of \$15,693. There is one unit in stock and the other a few days away.

2) The 2012 Polaris 850 like the one you have on LSJ will not be out until November or December of this year so there is no pricing at this time.

3) The new Kawasaki 2012 diesel mule only comes in the color green and is available now and is preferred over the gas unit which does come in Red but won't be available for 1 to 2 months.  
Cost of this unit is \$10,639.05 plus a bed lift kit for \$899 bringing the total to \$11,538.05

Please advise of approval so that I may start this process ASAP

Also all the units that are going to LSJ from Zorro were picked up and on their way to Tropical in Florida to send to LSJ

Thank you
