Ha ha ha ha ha

Yes
But I'm impeccable and focused on pure knowledge and consciousness based understanding of biology
Have to return to work and focus so no more distractions !!!!!

FYI
Update on Sultan and family
It's going to be a process but they are open
I'm working late into the night
We have 500 attendees seeking attention
So more later
Love 🌟🌟🌟🌟

Dear Deepak,

Thank you so much for the acknowledgment, that was most kind. I am excited to announce the work and am almost done with the press release content for you.

Do please have Rebecca fill out the proper paperwork so that I can participate next time and come on stage with you. I do think it is important to share our published findings with your followers. We shall announce at a Chopra Center event when I can officially do so.

Also, Suhas, Sheila and I met with your guests and daughter. I deemed that the child has all the classic issues that warrant FMT and she is thus a good candidate. I ascertained that the youngest sibling will be the best donor. We will refer them to have FMT in Europe as autistic children need light sedation daily for FMT and their daughter is drug-sensitive so must be monitored. I shared my Ayurvedic protocol that is modeled after the Western FMT model which uses antimicrobials and immunosuppressant drugs pre-FMT as a "knock down" and immunosuppressants post-FMT to ensure transplant acceptance. I designed an Ayurvedic herbal protocol do to the same thing and Suhas has one addition to it, but thought it was a good idea. Sheila will share all of our recommendations. They also should leave Dubai for some time, the whole family except the father is developing Leaky Gut likely due to environmental toxicity there. Suhas agrees. It was lovely to work together and combine expertise with the two of them. I hope this helps your friends!

All the Best,
Christine
