Mr. Epstein,

I am doing a story tonight for CNN Prime Time on your life, your accomplishments and also your legal challenges.

I would really like to interview you for the piece if you are in New York or even else where it can be set up via satellite.

Alternatively, do you have a statement that I could include in my piece about really whatever you want to say... but most likely responding to the current issues that have been thrust into the news lately.

Thank you Mr. Epstein,

Jean Casarez
