Dear Peggy,

The approximate value of all accounts, including the Martin Siegal Trust, as of February 1, 2013 is \$1,450,000. This figure does not include the value of the jewelry, as well as adjustments for professional fees.

As you know from your conversation with Sy Bressler at Bederson, they are working on finishing the final accounting, and expect to have it available shortly.

Gary

Dear Gary:

I hoped I would have received the single number that you said you would provide by Monday.

You asked that I deal with you directly.

You had me speak to Sy, which I did last Thursday. He promised he would get me that number by Monday.

I have called his office and unfortunately he was only in for a short time today and I have not received the information.

I do understand he is recovering from surgery and I am patiently waiting.

Possibly he or you can get me the number tomorrow.

Please advise.

Thank you in advance.

Peggy
