David -

I hope you are well and had a good new year.

Attached please find a letter from the major Jawbone shareholders.

We understand from Hosain that your team is currently reviewing the Meraas transaction. While we realize that this path forward is not what any of us (and you) had hoped for at the time of the investment, we appreciate your diligence on the matter and your responsiveness to the company's request for a final determination.

We do believe this restructuring provides the best go-forward opportunity for the company and, as you know, given the company's cash situation, time is of the essence.

Thanks again for your attention to this and please do let us know if there is anything we can do to help you get to a timely final determination.

Regards,
Scott
