## The Future of Finance

In our special nine-feature package, "The Future of Finance," we set out to report and write about how the world of finance will unfold over the remainder of this decade, by looking at nine key areas: China, finance theory, financial innovation, investment banking, monetary policy, pension funds, regulation, sovereign wealth funds and technology. Some of what we discovered may surprise you.

## Today's Spotlight: Monetary Policy

### [Ground Zero](#)

Monetary policy appears to be losing its effectiveness. No matter what the Fed and other central banks do, low rates and slow growth are likely to persist for years.

### [Bernanke's Fed Doubles Down on QE](#)

Central bank's gamble on open-ended bond purchases stirs as much skepticism as hope.

## Next on September 20: Regulation

### [New Rules](#)

Regulation has undergone a major overhaul in the wake of the crisis, but no amount of rule-writing can banish risk from financial markets – nor should it.
