---

Jeffrey

attached photo's for your consideration.

The new design pushes the Northern pathway over the edge of the North East corner,  
To make this work we will need to add more rocks and dirt to corner or adjust center point back, as laid out during your last visit.

Also the Grass Bed closest to the house is right on top of the Septic Lids.

The simple solution for this is, bury lids and when it's time to clean out tanks ( 3-5 years)  
we simply uncover, pump out and relay sod.

I have arranged for stone guys next week to fix existing wall and to do a mock up wall using rock from the ranch.

I will need Francisco(Grader Guy) back for final grade, and trucks for dirt/rocks to complete eastern edge of garden and final grade,

How would you like to proceed, move forward with present design or entire design back approx 5 feet

the wall length must be the same

Please note,

The wall length at the north and south entrance is approx 3', Vs east -west entrance is 5'

Can we move forward with this design

regards Brice
