Abbas' advisor calls to murder Israelis

Sultan Abu Al-Einein:

"All of us are required today to teach these settlers a harsh lesson... Let every hour of the settlers' presence on our land be a source of threat and terror for them. Let us deprive their lives of security, so that the Palestinian land becomes a minefield... the occupation must pay the price... and itself accept condolences [for those Israelis killed]"

Same advisor "blessed the breast that nursed" a terrorist who stabbed father of five to death

US Members of Congress demanded Abbas fire advisor in 2013, but were ignored

Today, Abbas' advisor Sultan Abu Al-Einein posted on Facebook an article quoting his statements inciting violence and murder of Israelis, calling for a return to the PA terror of the Intifada a decade ago. He called for targeting "settlers" to "teach [them] a harsh lesson" and for spreading "threat and terror," so that "the occupation... itself [will] accept condolences," indicating his support for the murder of Israelis:

"Let every hour of the settlers' presence on our land be a source of threat and terror for them. Let us deprive their lives of security, so that the Palestinian land becomes a minefield against the occupation."

"Our people will no longer accept condolences for the deaths of its Martyrs (*Shahids*), and that the occupation must pay the price for our Martyrs' blood and itself accept condolences [for those killed]."

Abu Al-Einein openly called for a "renewal" of the deadly terror tactics of the Palestinian Authority's terror campaign during the years 2000-2005 (the Intifada), stating that "the settlers should go back a decade and recall the price of their presence on our land, and to prepare themselves for the renewal of this model, [when] they did not dare move [around] without the protection of the occupation army."

Here Abbas' advisor is referring to the thousands of shooting attacks and suicide bombings Palestinian terrorists carried out against Israeli civilians during the PA terror campaign from 2000 to 2005.

[Palestinian Media Watch](#) documented last year that Al-Einein glorified and "saluted" as "heroic fighter" a murderer who stabbed and killed an Israeli father of five to death. Abbas' advisor exclaimed "[blessings to the breast that nursed](#)" the [killer](#).

Following PMW's exposure of this, five members of US Congress wrote [a letter](#) to Abbas demanding Abu Al-Einein be removed from office. However, Abbas did not take any steps to remove Al-Einein from office.

See additional statements by [Al-Einein glorifying terrorists](#), as well as Fatah reactions to the US demand of firing Al-Einein.

The following is a longer excerpt of Al-Einein's post calling for renewal of PA terror campaign:

"PA Chairman Abbas' advisor on NGOs and Fatah Central Committee member Sultan Abu Al-Einein ... recalled the murder of the [Palestinian] youth Muhammad Abu Khdeir and his being burnt with gasoline, in addition to the bulldozer operations carried out yesterday by colonialists against two of our people near Haifa (i.e., two Israeli Arabs were killed in a traffic accident), and the bombing of the southern districts by the occupation, (i.e., Israel's bombing of Hamas terror infrastructure in the Gaza Strip) which caused the death of nine citizens.

Abu Al-Einein emphasized that it is the fact that we refrain from stopping them and confronting them that encourages these settlers to run rampant on our land...

He said: 'All of us, the people and the leadership, are required today to teach these settlers a harsh lesson before it is too late. In addition, we must establish local self-defense committees in every village, city and refugee camp, in order to resolutely halt these mercenaries, so that they return humiliated, as in the past.'

Abu Al-Einein said: 'Let every hour of the settlers' presence on our land be a source of threat and terror for them. Let us deprive their lives of security, so that the Palestinian land becomes a minefield against the occupation.'

Abu Al-Einein called on our people to block the movement of the settlers and prevent them from moving from place to place and from using Palestinian

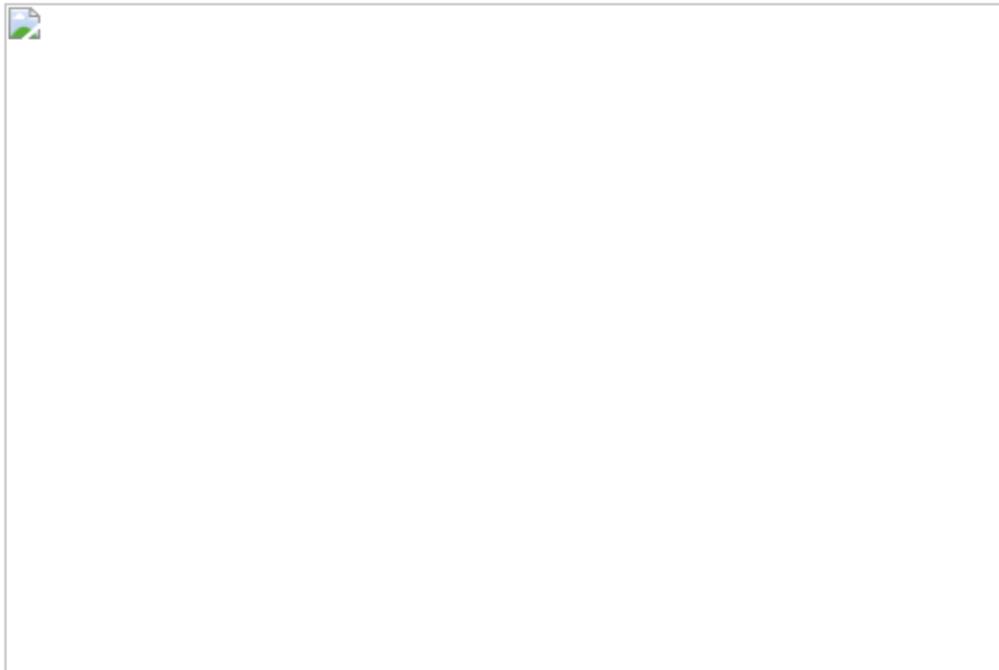

roads as if they were their own - so that their colonies become their prisons. He added that our people will no longer accept condolences for the deaths of its Martyrs (*Shahids*), and that the occupation must pay the price for our Martyrs' blood and itself accept condolences [for those killed].

He called on the factions and the national activity forces to take a most active part in these committees, under the patronage of the PLO - the only legitimate representative of the Palestinian people and the protector of our national enterprise - and not to content themselves with statements of condemnation [of Israel's actions]. In this context, he noted that the rate of popular resistance must be increased and concentrated on the settlers' outposts and areas of concentration, to stop them in various ways...

Abu Al-Einein said the settlers should go back a decade (i.e., to the second Intifada, the PA terror campaign 2000-2005) and recall the price of their presence on our land, and prepare themselves for the renewal of this model, [when] they did not dare move [around] without the protection of the occupation army.

He concluded his statements by saying that the Israeli occupation is responsible and will be responsible for the consequences of the settlers' attacks. He called attention to the incitement campaign [being waged] recently by the [Israeli] right-wing leaders against our people, which gave the settlers a green light and support to wreck havoc, run amok and destroy."
