Dear Joscha,

I'd enjoy getting together.   How long are you around for?   I have a very busy teaching schedule for the next couple of weeks
but if you are leaving let's find time.   Else let's get together mid May.

Jeffrey, thanks for putting us in touch.   It will be fun.   I have lots of good stuff to report to you too.

Seth

Hi Seth,

Jeffrey and me happened to stumble into a discussion of strong computationalism yesterday. I very much enjoyed your 'programming the universe' book. (Perhaps it would make sense to kick off computational philosophy as a sub-set of analytic philosophy, btw., and Floridi may not be doing the best possible job here.)

If you are up for coffee some time, I would be honored!

Bests

Joscha
