Dovish FOMC minutes sent all markets rallying. M4 WTI has moved up to \$102.65 and the collar is now worth \$2.60 as we head into the close.

Good morning. DOE stats came out this morning and with a draw of 5mm barrels of gasoline, WTI rallied. The collar is now trading at \$2.40 with June 14 WTI trading at \$102.20

Oil just popped. A couple of factors, the DOE short term report cut OPEC spare capacity projections and also cut non-OPEC production estimates. We have rallied up to \$101.53 in M4 (up nearly .80 from this morning). The collar is now trading at \$2.00

Thanks,  
Matt

Good morning Jeffrey –

We are trading very similar to where we were Friday morning after this morning's large rally. M4 WTI is trading \$100.74 and the 93.5/101 collar is now worth \$1.55 again. You can see the decay kicking in a bit as we are 12c higher in flat price, but the option is worth the same as Friday.

To give you a sense, the collar closed yesterday (before the big rally) at \$1.10.

Thanks,  
Matt

Jeffrey –

Good morning. Post payrolls, WTI has rallied about 1%. Your M4 93.5/101 collar is now worth \$1.55 with M4 WTI trading at \$100.62.

The equity rally is fading a bit and to be honest, expecting a soft commodity close as well going into the weekend.

Thanks,  
Matt
