## Featured Speaker

**Janet Sernack (Israel)**  
**Founder and CEO, ImagineNation**  
***"Innovate like an Israeli"***  
**(November 27, 4.45pm-6.45pm)**

Meet Janet Sernack. Janet Sernack is the Founder and CEO of ImagineNation™, an Israeli Start-Up that is an imaginative, generative & provocative global learning company that allows coaches, managers, leaders and organizations to develop their innovative and entrepreneurial leadership capability.

In this master class, Janet will share the secret ingredients behind this tiny nation's global success and leadership in disruptive high tech innovation through its "provocative competence". She will describe how it can be emulated, enacted and embodied within an innovative business eco-system, corporate culture development and learning context.

You will learn:

- A pragmatic and non-theoretical way of being innovative
- How Israel built an innovative eco-system and why they are the key to a sustainable and flourishing global future
- How Israelis innovate through colliding "necessity" and "possibility" and what enables its success
- How to develop the intrinsic motivators, mindsets and behaviors of effective innovation management and innovative leadership

**Jon Duschinsky (Canada)**

**Social innovator, global cage rattler and a change agent**  
***"Being the change - leadership in the age of shared value"***  
**(November 29, 1.45pm)**

Look around you. Technology is changing our relationship with the world around us and the drivers for business are shifting fundamentally. No single organisation has the time, talent and resources to make a real difference on its own and we all spend most of our time managing complexity. Yet, we gain most of our enjoyment from simplicity...

The things that inspire us today are the same things that inspired us yesterday. Great, simple, powerful ideas that we can understand instantly, gather around and be moved by.

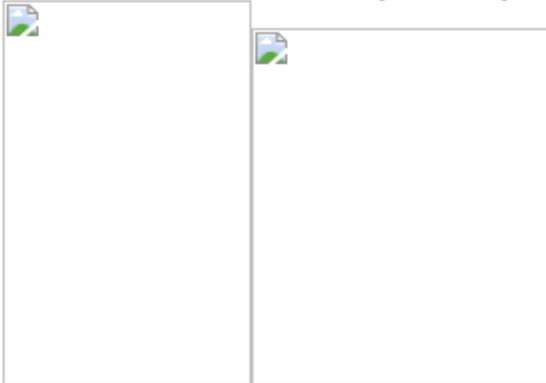

Join social innovator and global cage-rattler Jon Duschinsky for a powerful, moving and inspirational journey into the future of leadership, and the future of business, entrepreneurship and social change as he reveals the biggest business driver of the next decade, and what you need to do about it.
