Human Intelligence 2.0 *Thriving in the Age of Acceleration*

Join world changing innovators, disruptors, futurists, thought leaders and curious souls gathered together in an interactive community. Creative Innovation 2017 Asia Pacific is the premiere conference for anyone who cares about creativity, innovation, leadership, change and transformation.

You will join with directors, leaders and emerging talent from many of Australia's and the world's major organisations, State and Federal Government departments, Universities and entrepreneurs across all sectors.

- **Deep Conversation - \$150**
- **Master Classes - \$260**
- **Gala Dinner - \$225**
- **1 Day conference pass - \$1,180**
- **Special Platinum, Gold and Silver Early Bird packages**

Would you like to partner with Ci2017?

We are delighted to welcome the Department of Defence, BHP Billiton, Woodside, Arthur J Gallagher, University of Melbourne, the Australian Taxation Office, Deakin University, Fletcher Building and others as partners for Ci2017. There are a host of incredible opportunities to partner with us on this world class innovation event.

We would love to co-create and partner with you for Creative Innovation Asia Pacific 2017 and beyond. This is a great way to showcase your creativity, thought leadership and innovation strategy and provide professional learning and development to your leaders, stakeholders, clients and emerging talent. If you are interested in becoming a partner or creative collaborator for the upcoming conference, please contact:

We look forward to seeing you at Ci2017 November 13-15, 2017 for an important future-shaping event!

Daniel Kraft (USA) at Ci2016 - The Future of Health & Medecine

Dr. Daniel Kraft is a Stanford and Harvard trained physician-scientist, inventor and entrepreneur. He has over 25 years of experience in clinical practice, biomedical research and healthcare innovation. Dr. Kraft is the inventor of the MarrowMiner, an FDA approved device for the minimally invasive harvest of bone marrow, and founded RegenMed Systems, a company developing technologies to enable adult stem cell based regenerative therapies. In this talk Daniel outlines the role technology can play in the future of healthcare. From drones being used to deliver medical drugs to our phones capable of mapping our mental state.
