Dearest Jeffrey,

I've started to think of this day few weeks ago, trying to find a right words for this big occasion! And when i saw You on skype for this short excited moment I realised one thing ... You don't belong to this kind of world we know. You live in your own paradise. Your presents , Your being is the happiest I have ever seen on this earth! You shine as a billion stars in the sky! Jeffrey, thank You of showing this to us and giving as a chance to know that this kind of happinies really exists!

Happy birthday Dearest Jeffrey!!!

Sending You Gratitude and Love

Your Simona
