Hi Jeffrey,

Hope you are well. I am not sure what you know about us but there are some videos at one of our websites ([REDACTED]) that will give you an idea. We are also architects and do design built. Trak-kit is our patented invention that has been around for 5 years and now is getting a lot of attention. With it we are doing some interesting work and also various concepts and variations on the same system.

let me know if there is something that interests you and I am happy to meet as well when you are in the city.

Looking forward to it.

Best

Shadi
