I had dinner with a geek who created a video game called Criminal Case (2nd most popular on fb after candy crash) and has a revenue of 500K per day and met a photographer friend of a friend who needed an assistant and told me he would teach me everything he knows (production, Photoshop, retouching, lightning...). It could be interesting and it is something I've always wanted to learn.

I have to tell you !!! Can you talk now ? Serena has been very discouraging and bitchy. When I told her I wanted to work because I needed a job she basically told me I wouldn't go anywhere if I didn't have at least a degree and told me if I wanted an internship I could do it in spring but I needed to send her my CV and the convention of the university because even if she knows me she said I needed to do the application process as everyone else but I think I found an alternative. I've been with very smart people until now.
