Good morning Richard,

Just a quick heads up about what's going on in regards to the engine installation of above mentioned boats.

'Little C' has been finished in November.

Yesterday we picked up the SPORTIS and we are in the process of installing the engines on it.

There will be some extra charges like batteries, battery cables, steering components etc. that were not part of the original quotation and which will be invoiced separately.

Upon completion of the SPORTIS install I will send you an updated invoice for final payment.

Hope all is well and you are enjoying the nice warm weather.....

Best regards,

Harald Tapp
