---

Jeffrey,

I need your help with Boeing maintenance schedule.

The only quote Morrison was able to get for C check is AirOne in OpaLocka at this time \$251k,,, Stanbaugh in Brunswick GA will provide a quote next week but unable to accept the aircraft till Late February. Personally I like the fact of local maintenance in Miami to oversee the work easily, we will benefit from this both mechanically and financially. StanBaugh is slow to provide quote since they believe we are not in rush due to their earliest start date next month, however I would like to see their pricing to compare to AirOne in Miami. option #1 should I take the B727 in Miami and get started? Miami is ready to start and offer 30+ day completion baring no length repairs.

option #2 wait for Stanbaugh pricing?

thank you,  
Larry
