Importance: Normal

Hola Jeffrey!

When are you back to NY? Its for your rendez vous with talents + Katia Norton
How are you doing?

I talked to paris bar school regarding LLM with Berkeley. we have a special deadline until 28 february and 5 places are reserved at Berkeley LLM for paris bar school students. So I have all chances if I successfully pass TOEFL (english test).

From 20 until 25 janaury I am at Davos Economic Forum, managed to obtain accreditations for 2 conferences + all after parties. Do you have any friends of yours present at this economic forum with whom you may put me in touch for 20-25 january events ? Would be fantastic!

Another good news, LGT - Private Bank based in Zurich - signed a contract with me. I am so delighted to finally be able to make money myself in a strong organisation!! It is a traineeship since Russian passport holders are not allowed to work in SUI on my level...otherwise, the head of private banking offered me a full time real contract :)

Finally, i also work on an arbitrage trading platform...and learn so much on inversion trading. Michael Sassano is my coach and he wants me to become an arbitrage trader for exgate.com
He is the TALENT : <http://www.exgate.com/about-us> He made 6% of all Lehman brothers revenues, trading!
Maybe he is as intelligent in math as you are. but nobody beats you, in my eyes ;)

Please tell me if you may be interested to meet him.

I miss you my most lovely Jeff
