---

Jeffrey, this photo caught my eye,. I heard you are going to make the roof of the water treatment plant a parking area, which is a great idea, but doesn't have to be painted like a parking lot,,I know you don't play tennis, however, I thought this looked pleasing to the eye and blends into landscape quit well, could be used for tennis if you desired.

The surface is artificial astro turf, and appears to be holding up well in the sun. (Or could be painted like this as well,.

Just a thought,

Thx

Larry
