Hi Bryce,

Here are photos of the pups. Some are formal but most are around our farm. Brief personality and type descriptions:

Dot: male biggest of the group, most laid back and most striking color patter

Harley: male Almost as bit as Dot, very funny sense of humor, great conformation and color pattern

Spot: male Most likely to be a succesful show dog for those who want that. Great balance and conformation a little less tough than some others

Dash: only female left, brave, well conformed, nice markings and will get along with the world always because she will make it hers.

Zorro: male smallest of the group but should be a good sized dog definitely. He is mis- mark mantle because he has no collar. Hardy boy, very tough, but a little more keep to himself kinda guy

They are 10 weeks tomorrow. We would be happy to discuss meeting you part way or could possibly deliver for fee depending the schedule.

I have so enjoyed these puppies. I have only had a few litters in my life but this batch has been a winner from beginning to end. They are all good eaters, have grown like weeds have the biggest bone i have seen at this age and are beautiful to boot. All could be potential show dogs, even Zorro if he had a bit more white, or a bit less!

They are very likely to be close to \$200 lbs esp the boys . There is nothing but big individuals on both sides. My Quake Grandson is 1 yr old and is 34" and 165lbs already!! And I keep them thin in the rapid growth stage 3-12 mo. so to help prevent growth problems in the bones. Will give you info on that if you purchase, or will give it to you anyway if you need it.

Deposits are accepted for \$400/dog and will hold the dog 2 weeks or long if another payment is made.

I do have a buyer in Denver for Zorro but she has not sent her deposit yet. So, technically, he is still for sale. I will let her know also that you are interested.

If these are not what [REDACTED] like, I hope you find just what you are looking for.

Thanks for looking,

Barb
