Subject: ePlane - Benefit for Buyers

Hi Benny,

Please find below the list of benefits for Airlines while using ePlane:

ePlane is online eCommrce platform focusing on the commercial airlines industry.

ePlane 100% free for buyers. No subscription or usage fees. Sellers can list their inventory for free and will pay commission only on successful sales made through the platform.

1. ePlane is a full eCommerce, independent, platform. No RFQ's need. PO's are being sent through the platform after reviewing availability of required demands by all potential vendors.

2. ePlane is a nose to tail e-commerce solution, a buyer can finalize a deal with minimum effort, after reviewing and filtering results according to all the part relevant data.

The system provides the following details on every part: part number, part condition, unit location, lead time, scanned documents and more.

3. ePlane connects buyers directing to the end seller. Which means the effective prices are lower. No middle mans.

4. Rebate program on orders made through ePlane

5. Management and purchasing departments can easily view historical activities, benchmarks of part availability, prices and more.

6. ePlane supports all deal types: Buy, Exchange, Loan and Repair. A buyer can compare between all possibilities in one glance and close a deal online.
