Jeffrey

Attached photo's for your review.

A quick update

as requested, berm at front entrance was extended to help hide landscaping shed and propane tank cover. Access has been left for fire protection between the berm and the front wall

Over 35 Piñon and Juniper trees have been transplanted from various locations on the ranch.

Numerous loads of dirt brought in and spread, to cover rocks from Z to the front of the house for seeding next spring

Irrigation was extended to all trees planted and to the Z for the planting of sunflowers in the spring.

Tall grasses will be planted in the spring also

Next week we will continue with Fall pruning, start relocating trees to Larry's house, fertilizing of all trees at MH, RC and Larry's

The Blue Spirea you requested for Larry's house will also be planted in the spring.

any concerns please let me know.

regards Brice

attached photos: Front Entrance to Main House

As directed we cleared the area to the left as you approach the Main Entrance ready for seeding

To the right the Berm was extended leaving an opening close to the house for Fire protection

The Berm protects propane tank and fire suppression tanks which are buried directly behind it from heavy equipment

Do you wish to add Pinions to berm or around landscapers shed, if yes could you please indicate location of trees.

Trees will need to be placed prior to seeding.

please advise
