## Your inbox, in focus

Outlook for iOS and Android learns your habits and automatically organizes your email in **Focused** view—helping you quickly get to just the messages that matter.

## Clean up and sort quickly

**Swipe** right or left to archive, delete, or move emails. You can customize swipes to match your most frequently used actions in your inbox.

## Attachments made easy

Outlook for iOS and Android lets you access your cloud storage and email attachments at once, so you can find and share files with just a few taps.
