Dear Mr. Jeff Edwards,

As we told you in the last mail, the dimensions of the real Porcelain Room are 7m length, 7m width and 7,5m Height

The aproximate price for this kind of work was in year 2000 about 1.300.000\$.

Dear Mr. Jeff Edwards,

Acording to your email, we are writting to you to tell you the two possibilities we offer to build the Porcelain Room in New York city.

The first one would be to make a new copy from scrach, and install the copy in New York. This option would be a Little expensive.

However there is the second option. In this case we can purcherse the existing copy in the USA, restaur the copy and install it in the final emplacement.

The dimensions of the room are: 7,5 x 7 x 7

This choice would be much more cheaper than the first one.

Any information you may need, please let us know an we'll send it to you.

We are looking forward to hearing from you.

Best regards.
