Hi Jeffrey,

I emailed [REDACTED] to see if I could meet with you. Please have the kindness to at least respond.

Even if I can't move forward with the foundation, I would really welcome advice on who I could reach out to. I have a few groups/institutes that I would like to target.

I need a full time position.

I failed in squashing your bad press on Google. I was down to ONE last negative on you--and then was hit with tsunamis of awful media.

But that doesn't mean that I'm not a very good writer and effective at science content and media. I also work quickly and well with scientists involved.

Please get to me.

Thank you,
